Office Location: 3203 Campus Loop Rd.
Email: Please feel free to reach out to us at any time using the KSU Emails listed above. You can expect a response within 24 hours (normal business hours).
Office Hours: Monday-Friday, 9:00am-5:00pm. We can also meet with you virtually using Blackboard Collaborate Ultra.

To learn more about us, and what we do, please visit the Distance Learning Center website.

Course Description

Welcome to the Online Course Facilitation Program (OCFP)! The Distance Learning Center (DLC) designed this program to teach and reinforce basic delivery practices to facilitate an online course. Over the next four weeks, this course will help you develop competencies to deliver an online course.

Course Objectives

Upon successfully completing OCFP, you will be able to:

1. Copy and prepare a course for editing,
2. Apply the 10 principles of effective online course delivery,
3. Apply the 7 Principles for Good Practice in Undergraduate Education,
4. Apply the 3 primary principles for universal design for learning,
5. Update and change course documents and dates,
6. Prepare communications for course interactions, and
7. Grade submissions and provide feedback to students.

Learning Materials

All learning materials will be provided in the D2L Brightspace learning environment.

Minimum Technology Requirements

To successfully complete the program, you will need to have access to a computer (either a PC or a Mac). The computer should be equipped with Microsoft Office (including Word, PowerPoint, and Excel). Adobe Acrobat/Reader and Adobe Flash Player are needed to view or playback some of the learning materials. A speaker and a microphone (either built-in or external) are needed to complete some of the learning activities. A webcam is preferred but not mandated.

Your internet connection will also be important to your ability to complete the program successfully. This program contains a lot of audio/visual content, and a basic dial-up connection will not be satisfactory. We highly recommend a high-speed internet connection for taking this program.

**Minimum Technical Skills**

This program requires participants to have average computer literacy. Participants should be proficient with the basic functions of standard software packages (e.g., MS Word, MS Excel, MS PowerPoint, and Adobe Reader). Participants should also be comfortable with common Internet tools and activities, such as browsing web pages, emailing, as well as participating in online discussions.

**Grading**

This program requires the participants to complete at least 9 out of 10 milestones. Each milestone is worth 10 points for a potential total of 100 points. It generally takes 48-72 hours after the due date for us to grade the milestones and provide feedback.

Successful completion requires meeting the following assessed milestones:

- Milestone 01: Copy the course
- Milestone 02: Create a checklist
- Milestone 03: Update the syllabus
- Milestone 04: Update due dates
- Milestone 05: Create an online introduction
- Milestone 06: Create an announcement
- Milestone 07: Enroll a student
- Milestone 08: Leave feedback for an assignment submission
- Milestone 09: Respond to participants’ discussions
- Milestone 10: Leave a comment on a Grade Item

**Course Outline**

This program will be delivered online asynchronously. There is no required meeting for this program. Participants are expected to review the online materials and complete the required weekly milestones. Below is an outline of the content and activities in each unit of the course. All activities are due on Monday 11:59PM in Eastern Standard Time and are located in the D2L Brightspace Calendar.

Course Expectations

Late Assignments
As a courtesy, please submit your assignments on time according to the dates listed in the Assignments tool. If you are running behind, please do not hesitate to reach out to us.

Participant Responsibility
Depending on your computer skills and prior knowledge with the D2L Brightspace learning environment, this program may require additional effort until you are comfortable with different tools. During the program, we expect you to:
- Check the program course in D2L regularly
- Study the assigned learning materials
- Complete the assigned weekly milestones.
